

USING THE ELECTRONIC VERSION OF POSTHUMAN PATHWAYS

READING THE PDF

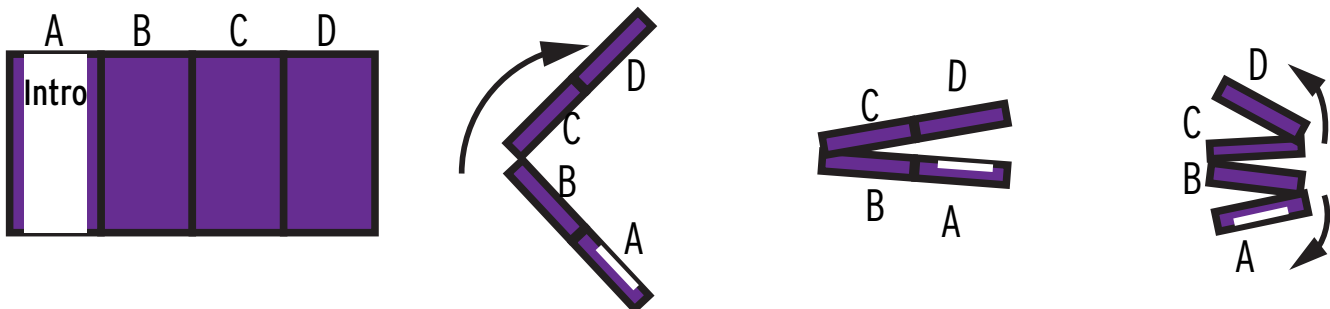

If you want to read the PDF on a computer or tablet, please skip pages 6,8 and 10. Those three pages have the same information as presented on page 4.

PRINTING THE PAMPHLETS

This game was designed to be played using five pamphlets folded in a specific way. You can either play using the high-quality professionally printed version produced by Genesis of Legend Publishing, or you can print them yourself from the PDF included. If you would like to print it yourself, set it to print double-sided on legal-size paper.

FOLDING THE INTRODUCTION PAMPHLET

The introduction pamphlet is an accordion-folded pamphlet. Fold it in half length-wise so that the Introduction page is hidden. Fold the two end panels back, so that the panel with the Introduction is on the front and the 3 Era descriptions on the back.

FOLDING THE OTHER 4 PAMPHLETS

All of the other pamphlets are double-gate fold. Fold it in half length-wise so that the Title page is hidden. Fold the two end panels inward toward the centre foldline. You should have your title panel on the front of the pamphlet and no text on the back.
